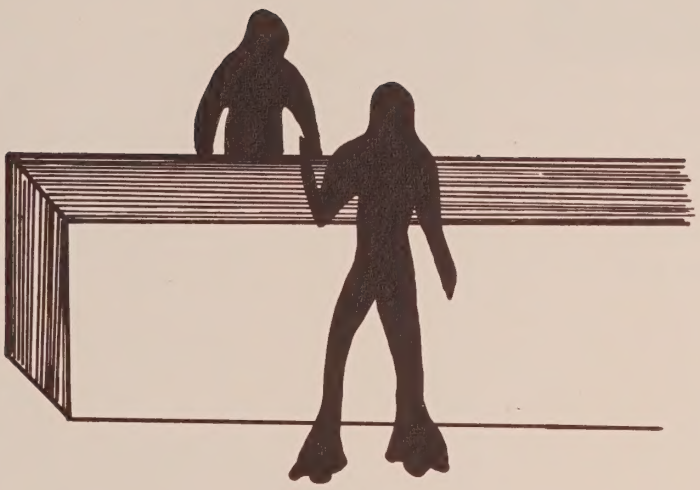
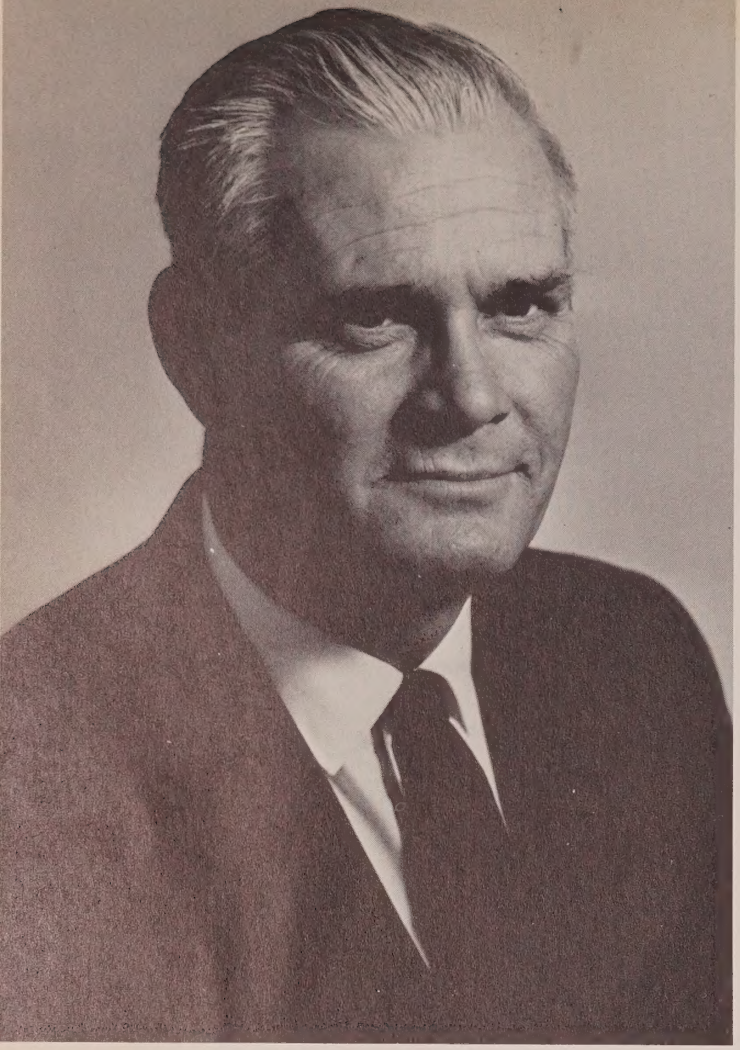
ADMINISTRATION





DR. AL LOWE
County School Superintendent

"The best preparation for the future is the present well seen to and the last duty done."
- G. MacDonald

Dear Students:

Those of you who are living in this magnificent age in history have an opportunity to contribute in a very meaningful way to the making of a better world. True, not many of us will be able to see earth-shaking modifications due to our single-handed efforts. But consider for a moment what contribution is needed and can be made by you, even as a student.

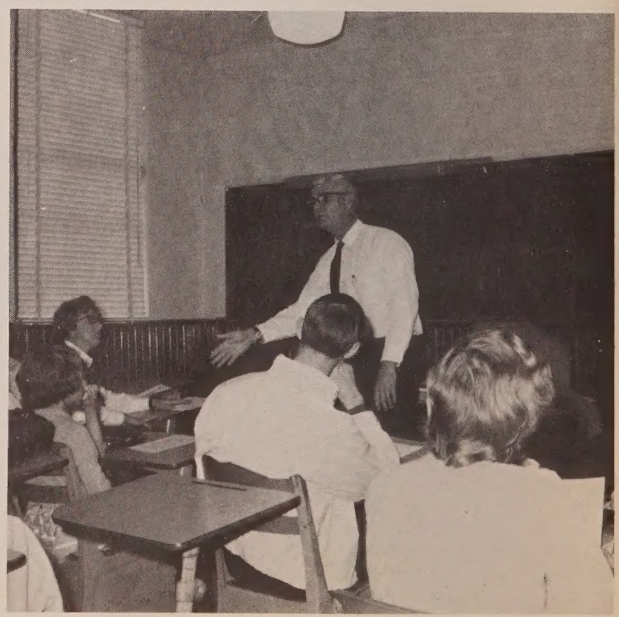
Great strides have been made in the material world. In my life time electricity, television, automobiles, sound movies, space travel, and medical cures unthought of fifty years ago are but a few of man's scientific accomplishments. Yet, if you look at the world about you, and more specifically right here at home you will see that our greatest need is in the area of better personal relationships with our fellow students and our fellow man. We just don't know how to get along with each other! If we can't get along together in our own community, how can we expect nations to live together harmoniously? Would it not be wonderful if all of us told the truth and all of us were honest with each other and with ourselves? I think so.

Let me share with you my motto in life. I try to be: honest with my God, honest with my neighbor, and honest with myself. The latter is most difficult. If you will think on this motto for your life and act accordingly, great changes will be effected in your life and in the lives of those with whom you associate. So may it be.

Very truly yours,

Al Lowe

AL LOWE
County Superintendent

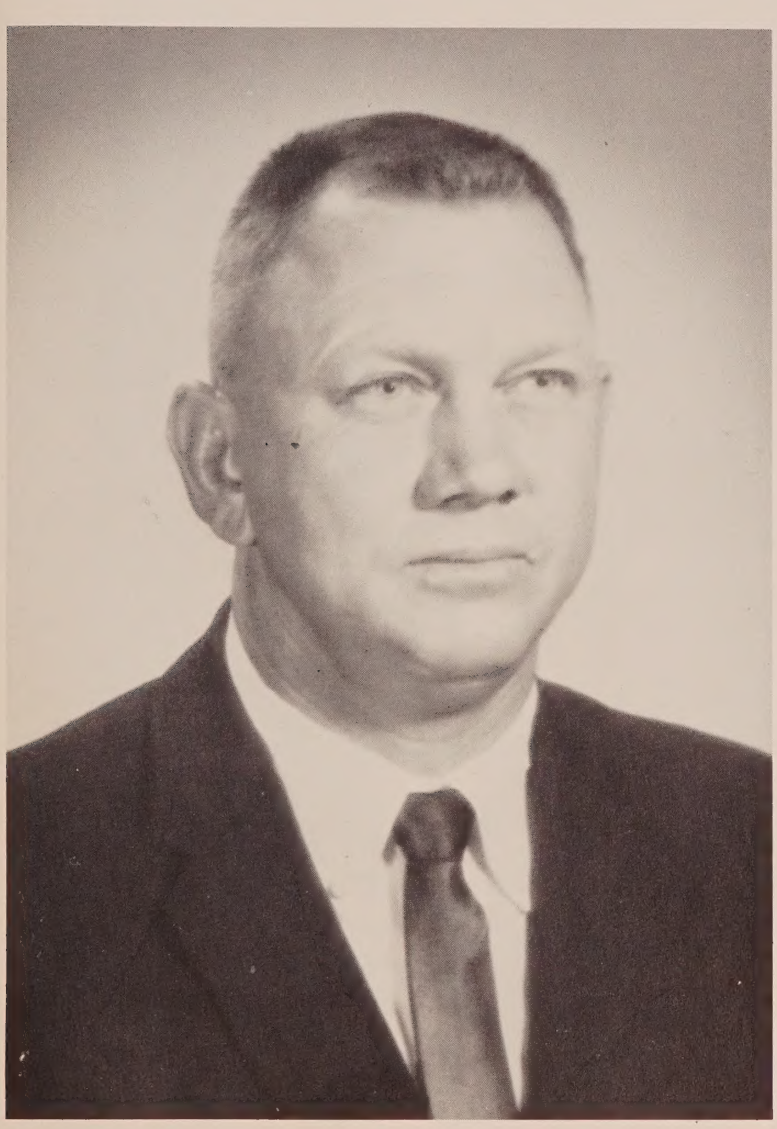


Dr. Lowe addresses a regular meeting of Future Teachers.

There is no limit . . .

"We are always looking to the future; the present does not satisfy us. - Our ideal, whatever it may be; lies farther on."

- Gillett



MR. SAM MITCHELL, Principal

Mr. Sam Mitchell, our principal, is a man who takes the lead when a decision has to be made. He strives to make the right decision at the right time and still hold the admiration of his students. To do all this, a person has to have many talents and be able to utilize them. Mr. Mitchell has been unselfish in using his for the good of the school, students, and faculty members who work, study, and play here.

The small courtesies sweeten life; the greater ennoble.

MIKE CLARK, President

Officers preside over council meetings.

As Student Council president I have made several observations. First, experience has shown me that every project, from the paper stand and suggestion box to a class play and prom to as far-reaching a thing as the elimination of racial prejudice, must all begin and be followed through at the individual level if they are to be successful.

Secondly, a few dedicated, enthusiastic, and imaginative people can work wonders, but if these wonders are to be beneficial and lasting these people must go through the proper channels and due process of law. Any attempt, however well-meant, to bypass lawful authority can only result in bitterness and disappointment.

Thirdly, school is a place to learn, to grow, and display character. Although man has never been wholly successful at governing himself and never will be each person can make life easier and infinitely more enjoyable for himself and others by careful development of his attitudes and actions. So, think small! You can't change the world, but you can and must, if you are to find peace and contentment, continuously change yourself for the better. If each of the 500-odd students at VHS would do this ... "Oh, what a change there'd be! ... "

-Mike
